

Inkjet Transfer Paper for Dark and Light Colored Fabrics (JETPRO 3G Inkjet Paper for Darks)

Instructions

JETPRO 3G is a Premium Heat Transfer Papers are designed for ink jet printers to transfer photos and images to T-shirts, Sweatshirts, mouse pads, puzzles and leather goods. Choose garments that have a tight weave. This is particularly important when transferring to sweatshirts. Product is suitable for DARK Fabrics and materials that require a low temp application or faster transfer process.

PREPARE TO PRINT

When printing multiple transfers, use plain paper setting. 300dpi, Photo Glossy setting will give a brighter image, but requires a longer drying time. (Multiple feeding is only recommended when using plain paper setting)

TEMPERATURE: 315°F (157°C)
PRESSURE: Medium to High
TIME: 15 Sec.

PRINTING

- 1) **DO NOT Mirror the image.**
- 2) Print image on the White Coated side of the transfer paper with an Inkjet Printer.
- 3) **Trim or Contour Cut** around the design.
- 4) Peel away the unprinted areas of the transfer if desired.
- 5) **Lift the design** from the paper backing, use a **Transfer Tape** for easier process.

HEAT PRESS

For use with: Inkjet Printers

Fabrics: Darks and Light Colors

TRANSFER: USING A COMMERCIAL HEAT PRESS

- 1) Place garment onto the press. Pre-Heat for 5 secs. To remove moisture.
- 2) Use Teflon paper to protect garment.
- 3) Place the transfer on top of the garment with: **Image Side UP.**
- 4) For all size transfers, set heat temperature at: **315°F (157°C).**
- 5) Press for: **15 seconds** using **Medium to High pressure.**
- 6) No Peel Necessary, **Remove Clear Transfer Tape** after cool down.

WASHING INSTRUCTIONS

Turn garment inside out and wash in cold water using a mild detergent. Do not use bleach. Dry on low heat setting. Do not iron directly on the transferred area.
